### The Most Trusted Movers in Tennessee

AVG: 5.0 

We currently have **111** Google Reviews

Move On recently assisted our company in relocating to a new 10,000 SF office space. The planning for the move was well thought out and professional. The combined experience of Move On and the Recrate packing service allowed a clean, seamless transition into our new space. They also performed a residential move for me and my family about a year ago and the service was top notch as well. I would strongly recommend Move On to anyone that is looking for high quality service that is dependable and professional.

- Jason Bennett , Hoar Construction

Rating: ★★★★★

As a Realtor, I am always on the move, literally. Personally, I have moved over 10 times in the last 3 years. Bryce and his team are very professional, timely and always save me time with their packing and ReCrate services. I have never had a broken item and am so pleased with their service. We encourage all of our clients who are looking to save time and headaches on closing day, to contact Move On for a seamless moving experience.

- Ashley Dugger , ACRE Real Estate

Rating: ★★★★★

I can't express how thankful I am for Zo & Seagram, our AMAZING movers. They handled every item with care, were friendly & professional, worked their butts off, and made our move so much easier. If I could give them 100 stars, I would. Just the sweetest young men. Kudos to Move On for hiring these two. Great guys - great service. BEYOND highly recommended.

- Lisa Blythe , Happy Customer

Rating: ★★★★★

Quite possibly the best money I ever spent. From the initial in-home estimate, to when the truck pulled away from our new house, it was an amazing experience. The same 3 man crew packed up our 3 bedroom apartment and moved us the next day. Lamont, Omar, and D were all very professional, helpful, courteous, and were great with my 2

### **Frequently Asked Questions:**

#### **What Makes Us Unique?**

When Move On began, our mission was to positively affect people's lives as much as possible. Our TN based moving company aims to give back and help our clients, all while having a good time doing so. Our team has one goal, and that is to make this whole process easier for you. We pride ourselves in our trusted, capable moving crew, our attention to detail, our reliability, and our excellent customer service. We understand that when it comes to moving, efficiency is key, so we work our hardest to help you

relocate smoothly and as quickly as possible, no matter the distance. As professionals, we desire for our clients to have the best experience possible with their relocation needs. We will offer you a safe and insured transportation of goods, moving tips and tricks during our walkthroughs, give an open and honest estimate, all while ensuring you, the client, have a stress and hassle free moving experience. Give us a call today, and let's start preparing for your upcoming move right away!

### **What Does Move On Offer?**

Move On offers a wide variety of moving services. Regardless of whether you are moving locally or in need of long-distance moving assistance, Move On is here to serve you. In need of packing help or supplies? Our professional team is more than happy to provide you with the best and most efficient packing experience. Learn more by viewing our service pages.

### **How Much Does Moving Cost?**

The best way to prepare for any relocation expense, is to have an organized and calculated moving cost checklist. Having everything on paper is a crucial first step to preparing for moving expenses. A sure way of getting an official and workable estimate is to set up an appointment for a free moving quote. Although moving costs vary with each client, the average moving costs within the state of TN range from anywhere between \$150-\$2000 depending on your relocation needs. However, we strongly encourage calling ahead of time to get your free moving quote, which will include all of the services you need.

### **Do Movers Pack Everything?**

We at Move On will take care of any packing help you need. During a predetermined walk through, our crew will offer packing tips, tricks, and will offer the best packing strategy to ensure the safety and protection of your belongings. Whether it be the packing and transportation of your large furniture, musical instruments, or all of your smaller household items, our crew is capable and willing to serve you in every way possible. We will also provide any packing supplies you may need with your next move. Don't struggle to pack on your own. Instead, turn to Move On, and let us show you why it pays to utilize our packing services.

### **When Should I Move?**

The best moving time and season really depends on your own specific moving budget and needs. If you are looking to move during a time that will be more budget friendly, the best time to move would be during the Fall-early Spring time frame. However, if you

have children in school, moving over the summer, although typically falling within a higher moving company demand time frame, would allow for a more suitable move to avoid any disturbance during the school year.

### **Do I Need an Estimate?**

We highly recommend pursuing receiving a moving quote or moving price estimate before moving forward with your relocation. Move On offers an honest free quote with no hidden fees and we are willing to discuss various options for you in order for you to receive the best moving experience possible ensuring your complete satisfaction.

### **Strict Hiring Process**

It is possible for us to train anyone and everyone how to move furniture among other household items, but it is not often that we can teach someone how to have a heart for serving. That is why every single person employed at Move On Relocation completes a 6 step training program. It takes at least 30 days to become Move On Certified. Our employees go through drug-screens and background checks. We also conduct various physical, personality, and attitude tests to ensure that not only are you hiring capable movers, but high quality personnel who care about you and your belongings. Most service companies only train their new employees for 1-2 days. That is not fair to your antique furniture or your grandparents possessions that have been passed down for generations. You deserve better than that.

### **Continue Reading**

Our professional movers are not solely trained when they start. Every year we have the whole team go through the same training process they started out with as a refresher. We also add new certifications to expand their credentials and further prepare

them for any moving service need. We created and developed our Move On Certification training process after being challenged by a Zig Ziglar quote: “The only thing worse than training an employee and having them leave, is to not train them, and have them stay.” There have been times where we have had to turn down fully capable movers because they were not aligned with our values. It is all done with you in mind, our customers.

We are obsessed with creating a seriously fun moving experience. We even have a different employee every quarter on charge of our company’s fun schedule. That’s right, we schedule fun.
